

CLIENT MEMO

Date: November 10, 2016

Dear Valued Clients,

Effective December 12, 2016, in a continuing effort to optimize our offerings, these changes will be made.

- The following test code will be discontinued:
 - Oncology Chromosome Analysis - CLL (TC 8045)
 - As an alternative, please order this test instead: Oncology Chromosome Analysis (TC 8300)

- The TAT for the following test code will be updated to 21 days:
 - Chromosomal Microarray Analysis - Tissue – Products of Conception (TC 8639)

- The TAT for the following test codes will be updated to 14 days:
 - Chromosome Analysis - Prenatal - Amniotic Fluid (TC 8530)
 - Chromosome Analysis - Prenatal – CVS (TC 8700)
 - Limited Karyotype Analysis portion of the following tests (note that the TAT for the CMA portion of the following tests will remain unchanged)
 - CMA-Expanded and Limited Karyotype - Prenatal - Amniotic Fluid (TC 8675)
 - CMA-Expanded and Limited Karyotype - Prenatal – CVS (TC 8676)
 - CMA-Targeted and Limited Karyotype - Prenatal - Amniotic Fluid (TC 8673)
 - CMA-Targeted and Limited Karyotype - Prenatal – CVS (TC 8672)

Please direct any questions to 1-800-411-GENE or email us at geneticstest@bmgl.com. Please visit our website at www.BMGL.com for additional information on our test offerings.

Sincerely,

Alan Pourpak, PhD, MBA
Director, Product Development and Strategy
