RE: Test Discontinuation Memorandum

Effective December 9, 2015, Baylor Miraca Genetics Laboratories (BMGL) will make the following modifications to its test menu:

- Test code 9126 (KRAS Mutation Analysis codons 12, 13, 61) will be replaced by test code 9128 (KRAS Mutation Analysis Codons 12, 13).
- Discontinuation of test code 9050 - MPD Panel (includes Identification of JAK2 V617F, JAK2 exon 12 and MPL Exon 10 mutations).
 - Tests for myeloproliferative neoplasms are available individually:
 - JAK2 V617F Mutation Analysis (test code 9010)
 - JAK2 Exon 12 Mutation Analysis (test code 9015)
 - MPL Exon 10 Mutation Analysis (test code 9020)
 - CALR Exon 9 Mutation Analysis (test code 9016)

Please direct any billing questions to 713-798-3566 or email us at billing@bmgl.com. Please visit our website at www.BMGL.com for any additional notices or postings.

Thank you for your valued business. We look forward to providing you with the highest quality genetic testing services.

Sincerely,

Alan Pourpak, PhD, MBA
Director, Product Development and Strategy
Baylor Miraca Genetics Laboratories
