

CLIENT MEMO

Date: February 28, 2017

Dear Valued Clients,

In a continuing effort to optimize our offerings, the following changes will be made.

Effective immediately:

- The CPT codes and insurance prices for the following test codes have been updated.
 - Global Metabolomic Assisted Pathway Screen - Plasma (Global MAPS)® (TC 4900)
 - Global Metabolomic Assisted Pathway Screen - Urine (Global MAPS)® (TC 4901)
 - Global Metabolomic Assisted Pathway Screen - Cerebrospinal Fluid (Global MAPS)® (TC 4902)

Effective May 29, 2017:

- The following test codes will be discontinued:
 - Aspartylglucosaminidase Enzyme Analysis (TC 4514)
 - Beta-Galactosidase Enzyme Analysis - Skin Fibroblast (TC 4548)
 - Beta-Galactosidase Enzyme Analysis - White Blood Cells (TC 4549)
 - Sialidase Enzyme Analysis (TC 4603)
- The turnaround time (TAT) for the following test codes will be updated to 8 days.
 - Amino Acid Analysis - Urine (TC 4240)
 - Biotinidase Enzyme Analysis (TC 4555)
 - Phenylalanine Determination - Blood Spot (TC 4120)
 - Pyridoxine-Dependent Seizures Panel - Cerebrospinal Fluid (TC 4812)
 - Pyridoxine-Dependent Seizures Panel - Plasma (TC 4811)
 - Succinylacetone Determination - Urine (TC 4250)
- The turnaround time (TAT) for the following test codes will be updated to 15 days.
 - Thymidine Determination - Plasma (TC 4330)
 - Bile Acids Panel - Plasma (TC 4185)

Please direct any questions to 1-800-411-GENE or email us at geneticstest@bmgl.com. Please visit our website at www.BMGL.com for additional information on our test offerings.

Sincerely,

Alan Pourpak, PhD, MBA
Director, Product Development and Strategy
